2002 BLACK BEAR HIGHLIGHTS

1 The **South Slope** management area is split into two hunts, South Slope, Yellowstone and South Slope, Vernal/Diamond Mt./Bonanza

2 Hunter Education: If an applicant for a resident or nonresident hunting license has completed a hunter education course and is applying for a hunting permit or license through the Division's drawings, Internet site, or other electronic means authorized by the Division, the applicant's hunter education number and the name of the state, province, or country that issued the number may constitute proof of completion of a hunter education course. The Division may research the hunter education number to verify that the applicant has completed a Division-approved hunter education course.

3 Bear applications are available February 5, 2002. The application deadline is 5 p.m., March 4, 2002. The drawing results will be available at Division offices, Lee Kay and Cache Valley Hunter Education Centers and the Division Web site by April 5, 2002.

4 Hunt numbers may have changed. To apply for a bear permit, use the blue three-digit hunt number listed on the hunt table in this proclamation.

5 Apply online: Applications, along with permit and handling fees, will be accepted through the Division's Internet address at: www.wildlife.utah.gov

6 Personal checks, money orders, cashier's checks and American Express, Discover, MasterCard and VISA credit cards are accepted for payment. Personal checks drawn on an out-of-state account are not accepted.

7 Late applications will not be considered in the drawing, but will be processed for the purpose of entering data into the Division's draw database to provide future preprinted applications, and re-evaluation of

Division or third-party errors. The \$5 handling fee will be used to process late applications. However, late applications received after March 18, 2002 will not be processed and will be returned.

8 For purposes of residency and age restrictions, the posting date of the drawing is the purchase date of a permit.

9 Bear may be taken only on limited entry units during the following dates:

Spring Bear Hunts: April 13, 2002 through May 27, 2002 on Nine Mile, Anthro-Range Creek; LaSal, LaSal Mountains-Dolores Triangle; Wasatch Mountains, West; and Wasatch Mountains, Currant Creek-Avintaquin units.

Fall Bear Hunts: August 24, 2002 through September 29, 2002; and November 1, 2002 through November 28, 2002 on all open bear management units not listed above.

10 Bear pursuit is closed from August 24, 2002 through September 29, 2002 on the Book Cliffs; LaSal, LaSal Mountains-Dolores Triangle; and San Juan units. Bear pursuit is closed during all pursuit seasons on Bare Top Mountain in the North Slope, Daggett Unit.

11 A mandatory orientation course is required for hunters who draw a permit for the following hunts: South Slope, Yellowstone (Hunt No. 004); South Slope, Vernal/Diamond Mountain/Bonanza (Hunt No. 005); Nine Mile, Anthro-Range Creek (Hunt No. 007); LaSal Mountains, Dolores Triangle (Hunt No. 008); San Juan (Hunt No. 009); Manti, North (Hunt No. 011); Manti, South (Hunt No. 012); Wasatch Mountains, West (Hunt No. 013); and Wasatch Mountains, Currant Creek-Avintaquin (Hunt No. 014). Hunters will be notified of the orientation date, time and location. Permits for these hunts will be distributed to successful applicants at this

orientation.

12 PRIVATE LANDS: While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands, you must also obtain WRITTEN permission from the landowner or person in charge. Unless otherwise provided, all hunt units exclude CWMUs and Native American Tribal Lands.

13 New license suspension guidelines: The 2001 Legislature enacted new guidelines for the suspension of one's hunting privileges following the adjudication of a wildlife violation. A person in violation of any Title 23 or Wildlife Board Rule and, (i) is convicted of a third degree felony may have their wildlife license or permit privileges suspended for a period of seven years; (ii) is convicted of a Class A misdemeanor may have their wildlife license or permit privileges suspended for a period of five years; or (iii) is convicted of a class B misdemeanor may have their wildlife license or permit privileges suspended for a period of three years. Each of the above periods of suspension may be doubled if the animal involved in the violation qualifies as a trophy animal as per 23-20-4.

If any person, within a five year period, commits three or more Class B or Class C wildlife violations, that person's license and permit privileges may be suspended for a period of up to one year for each violation.

License Suspension

The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

The Division of Wildlife Resources is funded by the sale of hunting and fishing licenses and through federal aid made possible through an excise tax on the sale of firearms and other hunting and fishing-related equipment.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources.

Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division web site:

www.wildlife.utah.gov (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process.
